

Yangon, MYANMAR

Tony Barabas, Wee Lam, Dave Bell, Haz Alfeky, Jill Baker

April 2019

In April of this year a team of 5 plastic surgeons from across the UK travelled to Yangon, Myanmar. Wee Lam, Tony Barabas, Dave Bell, Haz Alfeky and Jill Baker visited Yangon General Hospital, delivering a microsurgical course for both orthopaedic and plastic surgery juniors. The juniors enjoyed this hands-on 2 day course taking them through the basics of microsurgery.

The orthopaedic team also lined up a few complex lower limb reconstructive cases. It was a great opportunity to see the orthoplastic team work together. Dave Bell and Haz Alfeky led both teams through these difficult cases creating a fantastic learning opportunity for all involved. As requested by the local surgeons, BFIRST and BSSH plan to return in 2020 with two teams to teach on congenital hand surgery and burns.

Jill Baker
Plastic Surgery Trainee
